

# **Frequently Asked Questions - New York/New Jersey**

## **What are Energy Service Companies (ESCO's)?**

ESCO's are companies that are registered with the Public Service Commission and your local utility, and compete to sell you natural gas and electricity. No matter which energy supplier you choose, your utility will continue to deliver the energy to your home and/or business and will respond to service emergencies.

## **How do I enroll?**

You can enroll online or you can call Hudson Energy at 877-Hudson-9 (877-483-7669). Hudson Energy Services will take care of all the work involved in enrolling you as a transportation customer.

## **Who will bill me for my energy supply?**

In most cases, you will receive one convenient bill from your local utility that will include the charges from Hudson Energy.

## **Is there any fee for switching?**

Hudson Energy does not charge any fees to enroll nor are there any termination fees. Most local utilities do not charge any fees for switching as well.

## **Are there any monthly service charges?**

Hudson Energy does not have any monthly service charges.

## **Why should I switch?**

Hudson Energy's rates are lower than your local utility and are very competitive among all the ESCOs.

## **How can Hudson Energy's prices be lower than the utility?**

There are various taxes and charges that are included in the utility rate that the regulated utility is required to charge. Hudson Energy does not have those charges. In addition, Hudson Energy offers the option of "locking in" your price, which the utility does not offer.

## **How much can I save?**

It varies from utility to utility, but keep in mind that the supply portion of your bill can be as much as 60% of your total bill.
